September 23, 2022 // Treasurer Report

Current Balance / Funds as of 9/23/22:

Checking: \$ 58,618.34

Savings 1: \$ 71,581.90

Total Funds: \$ 130,200.24

* Total Funds at this point one year prior, on 10/11/21: \$ 126,781.53

Membership Revenue:

2022 = \$27,350*	2018 = \$26,169	2014 = \$18,661	2010 = \$11,033	2006 = \$ 6,782
2021 = \$30,225	2017 = \$26,288	2013 = \$20,200	2009 = \$10,480	
2020 = \$25,322	2016 = \$25,455	2012 = \$18,948	2008 = \$12,264	
2019 = \$26,368	2015 = \$22,176	2011 = \$11,021	2007 = \$ 9,155	

* As noted last quarter, to accommodate for the growth of small and medium-sized member agencies while maintaining their dues at a static rate, INABC By Laws were updated on December 7, 2021 @ small agencies revised from 6-10x members to 6-15x members, and @ medium-sized agencies from 11-15x members to 16-25x members, while large-sized agencies increased from >16x to >26x members. As a result, while total INABC membership has increased by about 3% thus far in 2022, total membership revenue has decreased by about 11%. Given consistent, and significant, growth since 2019, it seems likely that total membership revenue will return to 2021 levels by 2024, if not before.
